Experience

LUMI LUMI Vision Jan. 2024 – Present
Co-Founder & Software Developer *Los Angeles, CA*

- Architected and launched a responsive e-commerce platform in Next.js/TypeScript/React on Vercel supporting 25+ SKUs.
- Built and customized backend with Medusa.js on DigitalOcean and PostgreSQL via Supabase to streamline inventory, order processing, and optometrist accounts.
- Integrated Stripe and PayPal for multi-method payment processing.
- Implemented Redis caching for dynamic pricing and tax logic across product variants.
- Configured AWS S3 asset storage and connected Mailjet for automated order confirmations, shipping notifications, and marketing drips.
- Represented the company at Vision Expo and other trade shows, forging partnerships with 9 U.S. and 1 Canadian optometry offices.

RollWorks (NextRoll) Jul. 2021 – Jul. 2023
Software Engineer *San Francisco, CA*

- Created RollWorks Workflows, an orchestration tool that takes an automated sequence of steps to take action on up to 20,000 contacts a day across external platforms. Started from building a simple proof-of-concept to a full beta release—integrating HubSpot and Salesforce—using a React/TypeScript frontend and Go backend.
- Refactored a library of 20+ shared React components across multiple frontend repositories, serving as a Solver to improve code consistency and developer efficiency.
- Built an ETL pipeline with AWS EMR, PySpark, and Airflow to process AWS S3 snapshots and load data into DynamoDB, supplying Drift's AI Chat agent with data on visitors.

Nuvolum Mar. 2019 – Jul. 2021
Lead Frontend Web Developer *Petaluma, CA*

- Developed 15+ client websites using React and Gatsby with AWS Amplify and Netlify CMS, enabling non-technical user updates.
- Built complex custom pixel-perfect sites, with features such as a curtain pull-up animation, lazy-follow mouse pointer, photo galleries, carousels, sliders, and multi-location pages, etc.
- Migrated legacy WordPress/PHP/jQuery sites to React architecture, reducing client website buildout time by 67% from 6 weeks to 2 weeks.

Technical Skills

Languages: JavaScript, TypeScript, Python, Go, PHP
Frameworks: React, Next.js, Medusa.js
Tools & Libraries: Tailwind CSS, Puppeteer, Jest, Redis, AWS (S3, EMR), DigitalOcean, Supabase, Git
Databases: PostgreSQL, DynamoDB
Payments & APIs: Stripe, PayPal, Mailjet
Others: HTML, CSS, SQL, LLMs

Education

University of California, Los Angeles Los Angeles, CA
B.S., Chemistry & Materials Science
